PREFACE

In 1939, the San Francisco Bay Region Chapter of the Special Libraries Association issued the "UNION LIST OF SERIALS OF THE SAN FRANCISCO BAY REGION." During 1940, plans were made to issue a supplement to bring the holdings of the main volume, which are as of January, 1937, up to date. The holdings of the original list of cooperating libraries form the basis for the entries, with changes filed in 1938-40 under the chairmanship of Mrs. Doris Cantou and those submitted to the present committee. Records of nine libraries not included in the main volume appear in the supplement. Ten libraries whose names are on the list in the original volume were unable to cooperate or reported their files practically unchanged. The present volume records holdings of 39 libraries.

PERIOD COVERED. The Supplement brings information down to approximately January, 1941. However, notes of changes later than this date have been used. Some libraries reported changes of holdings through January, 1942.

ASTERISK. The Supplement contains new titles and titles previously listed in the main volume. The reprinting of information given in the original volume has been avoided by using an asterisk (*) for titles previously listed. These entries are found in full in the main volume, the entries in the Supplement represent either a correction or holdings of new libraries or of libraries that have acquired holdings since the original volume was published.

FORM OF ENTRY. Titles will be found here under the latest form of entry known to us. The earlier title is given in the note and is preceded by an asterisk to indicate that under this form it is to be found in the main volume. Complete holdings, those in the main volume as well as new and changed holdings, have been listed under the latest title in the Supplement. When a title shown as current in the original volume appears as a closed one in the Supplement, complete holdings are listed also. When holdings appearing in the original volume have been discarded, the Supplement carries an entry "Discarded file". The record of holdings in the Supplement always supersedes the record in the original volume.

REFERENCES. Cross references have been made only from the latest title in the main volume to new or changed ones. They refer to titles in the Supplement only.

ACKNOWLEDGMENTS. The compilation of this volume has been made possible through the cooperation of the contributing libraries, the donation of supplies and clerical assistance by several libraries, and by the loyal assistance of the committee members and other members of the association who have given their time and effort to the project.

The Union List Committee was composed of the following members: Mrs. Agnes Reinero, Miss Anita Levy, Mrs. Marjorie P. Madison, Mrs. Rosa Nicol, Miss Margaret Miller (Chairman).
